The image shows a modern residential building with a prominent wooden frame and large glass windows. The building is situated in a courtyard-like area with a paved walkway and young trees. The sky is clear and blue. The building's design is characterized by its vertical wooden slats and the vibrant green panels that fill the window openings. The overall aesthetic is clean and contemporary, blending natural materials with modern architecture.

An architectural rendering of Villa Roca Llisa, a modern residence in Ibiza, Spain. The building features a combination of white stucco walls and light-colored stone cladding. It has a multi-level design with a prominent balcony on the upper floor enclosed by a dark wood slat railing. A large, cantilevered roof structure with a dark wood slat underside extends over a paved area. The foreground shows a wide, light-colored paved driveway or courtyard. To the left, there are palm trees and some low-lying plants. The sky is a clear, bright blue. The overall aesthetic is clean, minimalist, and modern, blending with the natural environment.
