

## Description

Jubea ST

Designer: CDC  
Typology: Chair  
Year: 2014

Description:

An object which represents the means to add a further personal perspective of the philosophy of life, the research into materials and shapes, to guide towards an ever – increasing focus on its own objective of formally linking together minimalist and creative sensitivity, in order to find the consensus between

those who wish to explore further the highly modern trend for a dialogue between indoor and outdoor spaces. Chairs, armchairs, poufes and tables will furnish terraces and gardens thanks to their linear elegance characterized by multiple finishes that can be used to better complement your garden: satin or colored structure, technical fabric proposal that will give you a wide offer to choose the best solution for you.

Technical information:

Frame: Steel inox satinized or powder coated

Upholstery: Technical fabric in Sun or Batyline® available in different colors
