

Description

Node-2

Designer: **Riccardo Giovanetti**

Typology: Carpet

Description:

Node is a collection of hand-knotted rugs born from the encounter between Italian creativity and the craftsmanship of the best carpet manufacturers in northern India. The carpet collection was born from the idea of experimenting with the potential offered by the processing of polyester cordage for outdoors by creating a set of products that enhance the three-dimensionality of the surface and represent the ideal platform for the Sally collection.
