

Descrizione

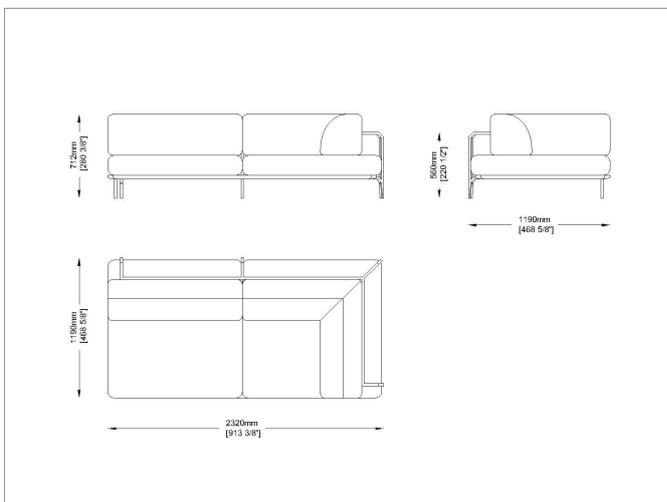

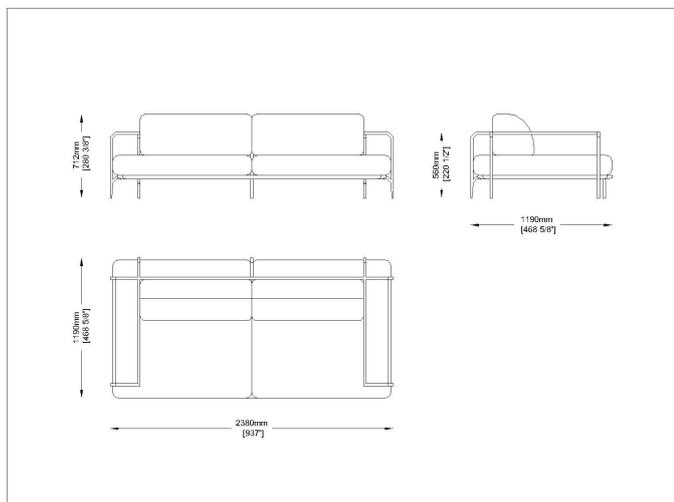

Sabal

Designer: Matteo Nunziati Tipologia: Divano Anno: 2014

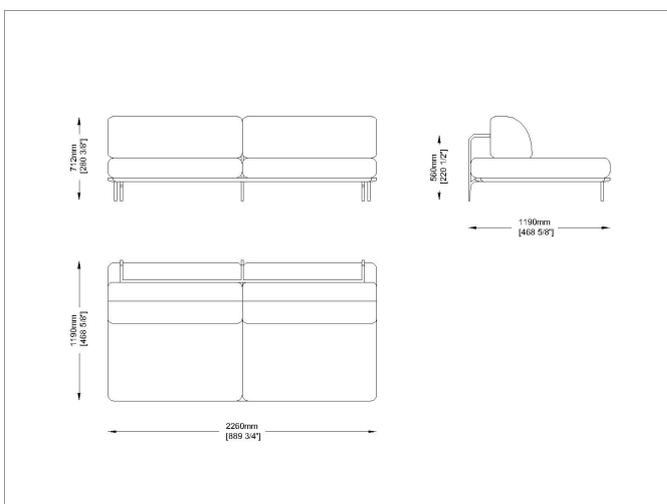

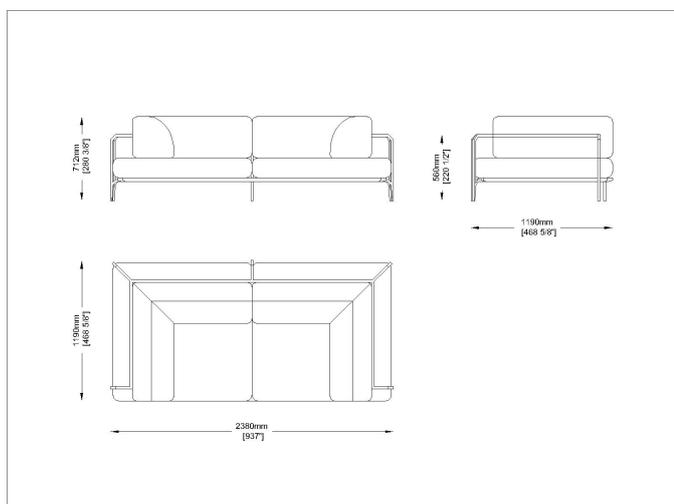

Descrizione: Il rapporto tra un oggetto e l'ambiente circostante è diventato sempre più importante nel determinare la qualità di ciò che "disegniamo" e "progettiamo": l'utilizzo di un tocco leggero garantisce un mix creativo di buon gusto ed equilibrio. Non vogliamo semplicemente produrre un mobile, vogliamo convivere. Oltre all'ampia seduta che vi accoglie tra i vari modelli della collezione Sabal, la proposta propone anche la versione con tavolino. La comodità di una seduta e la facilità di godersi un drink nel proprio spazio esterno sono ben soddisfatte dalle tante composizioni e alternative che questi divani offrono. Coordinare i tanti tessuti da esterno o piani in laminato con la struttura in acciaio di questi divani sarà la tua ulteriore possibilità per creare l'angolo di giardino che hai sempre desiderato.

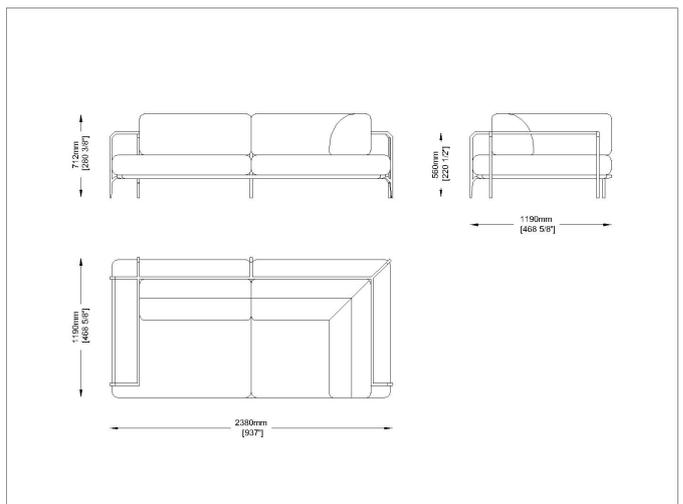

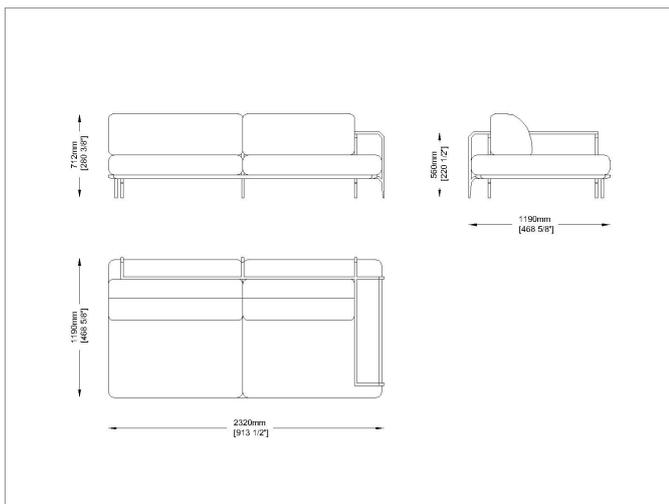

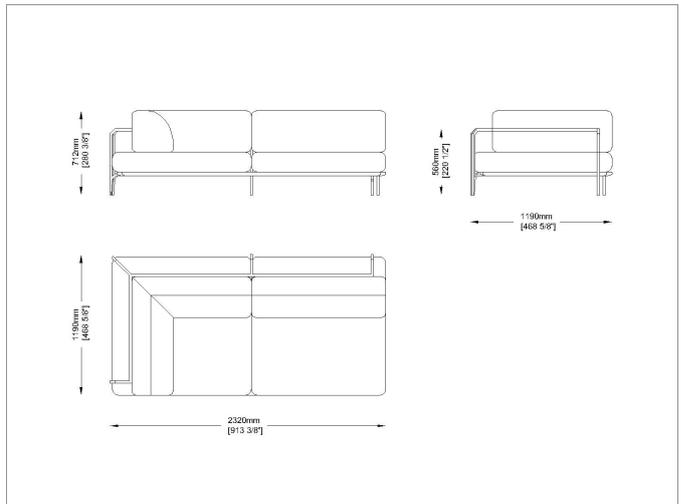

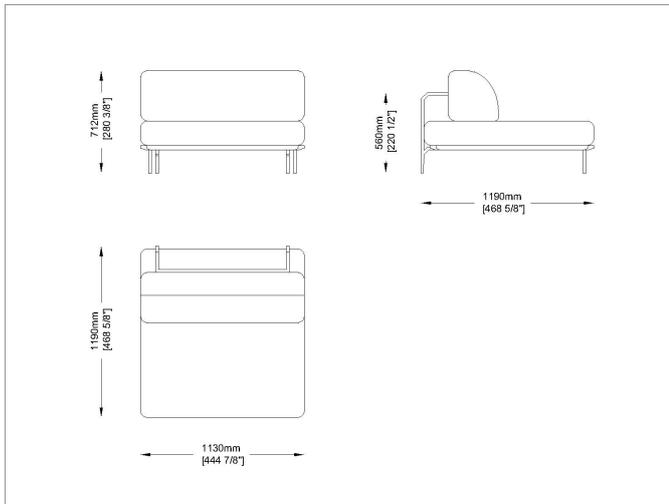

Informazioni tecniche: Struttura: Acciaio inox satinato Piano del tavolino: anima in massello (bianco o nero), laminato ad alto spessore in diversi colori o teak
