

Description

Sally with arms long cord

Designer: Riccardo Giovanetti

Typology: Chair with arm

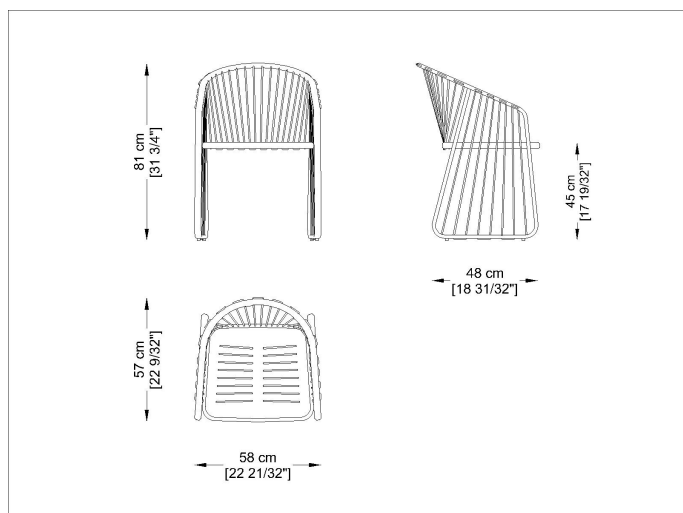

Description:

Sally was born from the idea of creating a collection of outdoor furniture that introduces new constructive and formal solutions: a light and elegant aluminum structure is enriched through the innovative design of the cord that enters and exits the frame, creating a new tensile structure. Sally does not represent a single product, but an articulated family that interprets contemporary living with a strong and recognizable sign.

Technical information:

Armchair with structure in extruded and painted aluminum profile. Back and sides with tensioned acrylic long rope. Seat in painted aluminum. Seat cushion available in draining polyurethane or conventional polyurethane
